

A silhouette of a person standing on a hay bale with their arms raised in a gesture of triumph or joy. The background is a vibrant sunset sky with streaks of orange, red, and purple. The person is positioned on the left side of the frame, and the hay bale they are standing on is also on the left. The sky is filled with wispy clouds, and the overall mood is one of accomplishment and positivity.

Meet the Founder: Domonic Gordine

One of MoiSigne Mentorship Program’s ambitious goals is to expand nationwide to reach out to hundreds of thousands of deaf youth mentees. We owe that much to our deaf youth, who will be our next generation of deaf leaders, scholars, and educators— fighting and advocating for our precious deaf rights.

While speaking with deaf youth in the greater Philadelphia area, most deaf youth who never had a mentor, I found that many were less likely to graduate from high school, go to college, and/or lead productive lives as adults, compared to with their hearing counterparts. I wanted these youths to have what I have had- Influential role models when I was their age.

The name “MoiSigne” is a French word for “My signs.” It is a contribution to our ASL’s French roots when French Sign Language (LSF) morphed into ASL in the past. Deaf individuals of our community are empowered when they have their own language, culture, and signs to make a difference in their lives. “My signs” then became “MoiSigne” to represent the ownership of our language.

What We Offer

Parents and guardians, are you looking for an ideal mentor or tutor for your deaf child?

Our mentors/tutors can speak your child's language (sign language, oral, and more) and have knowledge of deaf experiences

Easy, direct communication with your child without needing interpreters!

“Culturally sensitive mentoring programs can improve students’ participation in education and expectations for their future educational path.” (National Deaf Center)

What We Offer (Mentoring)

We offer both virtual (videochat) and in-person mentoring (subject to availability) to deaf children from age 14 to senior year of high school

Our mentors are role models for your deaf child to look up to, build personal connections/social skills, and gain important life advices to lead to a better, happier, and successful child

Chat with our mentors virtually from the convenience and safety of your home, but we do offer in-person mentoring if both mentors and mentees are in the same location.

“Mentoring programs can increase students’ self-confidence, self-determination, persistence, personal development, and social development” (National Deaf Center)

What We Offer (Tutoring)

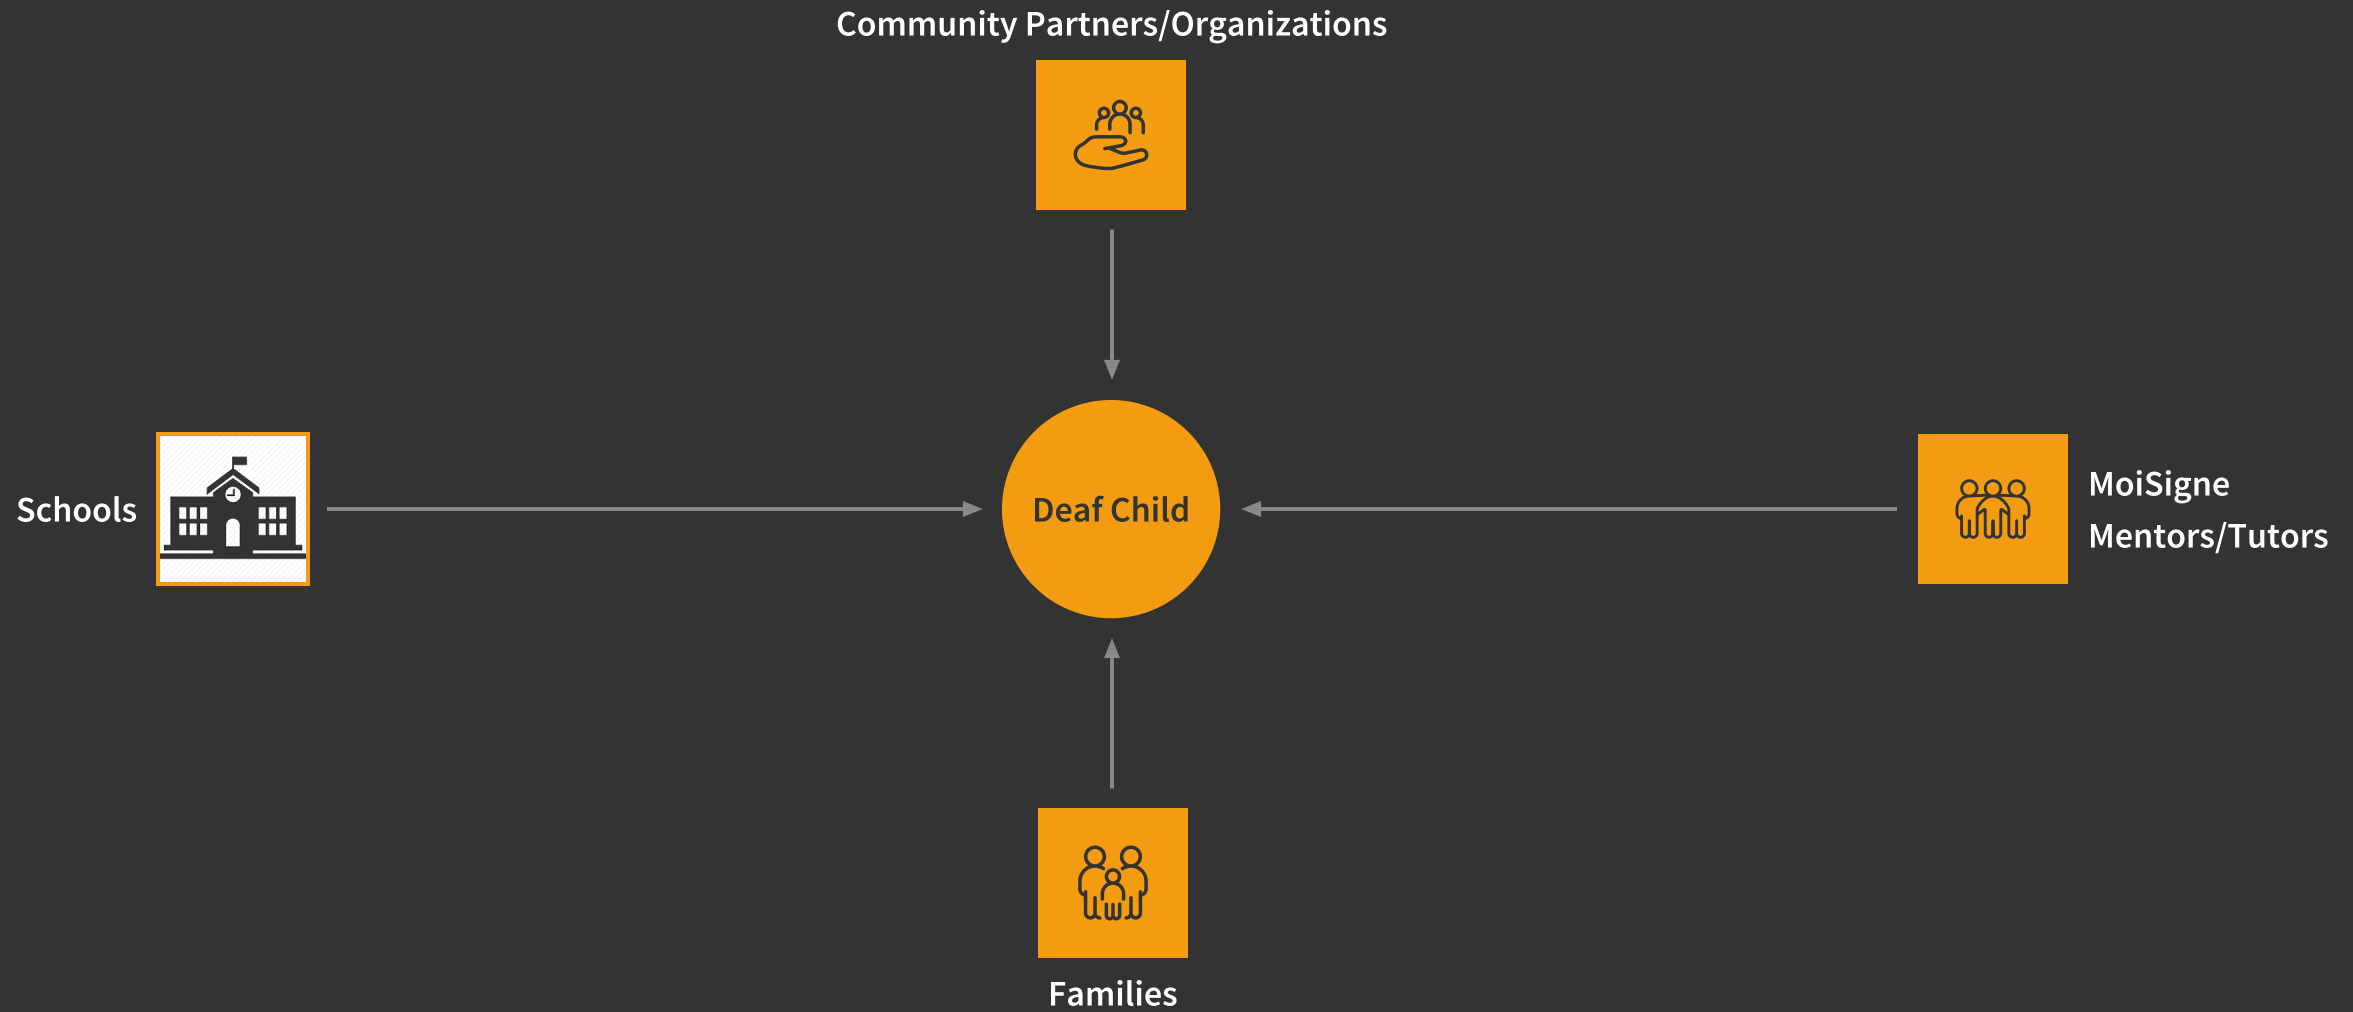

We offer both virtual (videochat) and in-person tutoring(subject to availability) to deaf children from age 6 and beyond

We pair tutors to your child to meet your child's academic needs. If your child needs help with math, we'll get you a tutor who's great with math

Work with our mentors virtually from the convenience and safety of your home, but we do offer in-person tutoring, depending on location and availability

*“Mentoring and role modeling programs can improve academic outcomes (e.g., grade-point average, standardized test scores)”
(National Deaf Center)*
